## Frontend Developer

---

Dear HR Manager,

I am writing to express my interest in a frontend developer position at your company. I have experience in the development of interactive web applications and believe that my skills and interest in technology are a great fit with your team's goals.

For the last [number of years] years, I have worked extensively with HTML, CSS and JavaScript, as well as popular frameworks such as React and Svelte. In my last job, I was involved in the development of various tasks, creating game menus, admin tickets from users, creating game quests, a lot of game pages, a lot of logic in all tasks, as well as working with the client of the GTA 5 game itself, there were also other tasks related to the development of sites for other projects.

I also have experience collaborating within teams, which allows me to effectively communicate with colleagues, discuss ideas, and implement best practices. I am always eager to enhance my skills, actively keeping up with new technologies and trends in web development.

I am sure that my experience and enthusiasm will help the company reach new heights. I would be happy to discuss the possibilities of how I can contribute to the success of your team.

Thank you for considering my application. I look forward to a meeting to discuss the details.

Best regards, Sincerely,  
*Yaroslav Borys*
